

# How to fix Mach-O linker error.

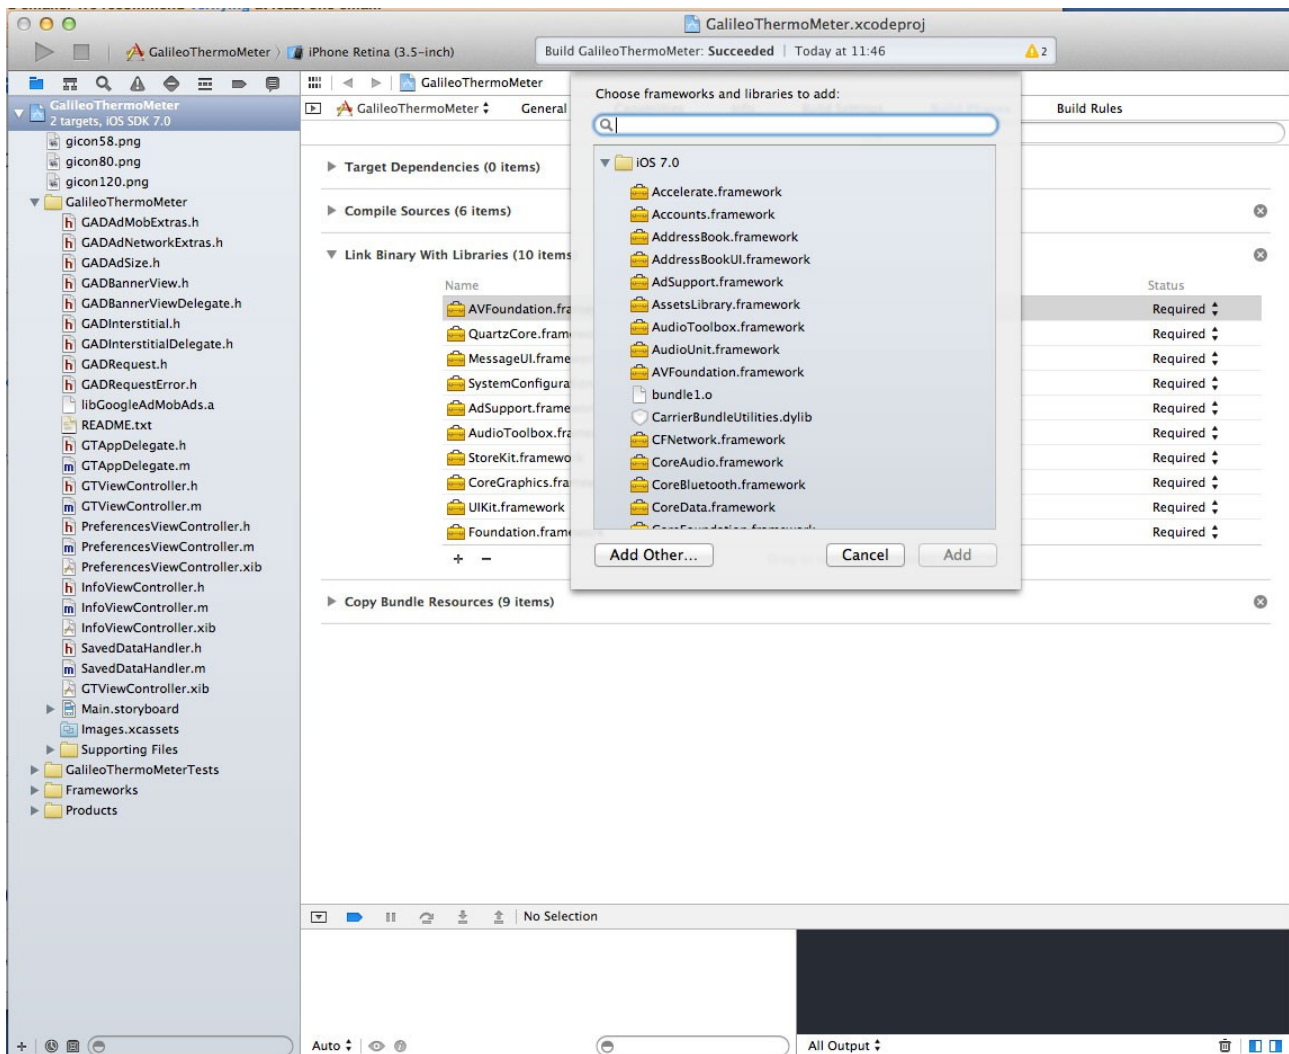

If you build and run these files, Mach-O Linker Error will occur.

In this case, please fix the file preferences in accordance with following instructions.

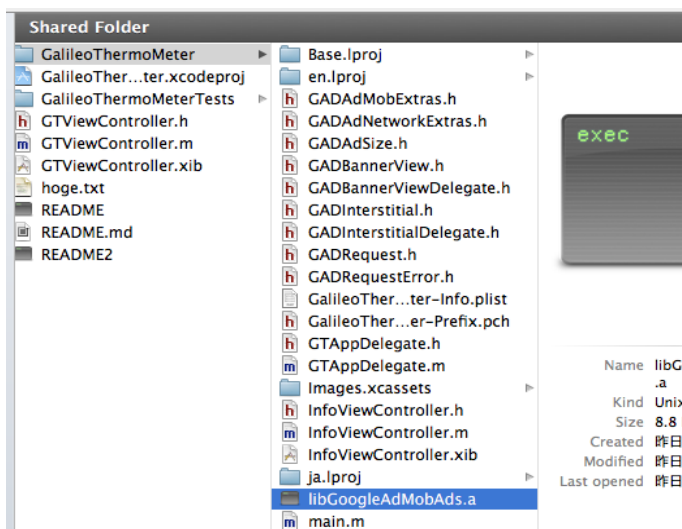

1 Open [project file](#), and select “[Build Phases](#)” tab. And Open “[Link Binary With Libraries](#)” section.

2 Delete “libGoogleAdMobAds.a” .

3 And add “libGoogleAdMobAds.a” under the directory of “GalileoThermoMeter”.

4 Please build and run.
